Echoon---A-introvert-Social-Media-app

Echoon is the social media Android based app specially designed for the introverts with respect to their requirements.

Echoon - A Social Media App for Introverts "Connect Quietly, Express Freely." Overview

Echoon is a minimal and calm social media application designed especially for introverts — people who prefer subtle, text-and-photo-based interaction rather than noisy and overwhelming engagement.

This app provides a safe and comfortable digital space for self-expression, sharing thoughts, and connecting through meaningful posts — without video content or social pressure.

Key Features

Home Feed: View posts shared by users in a simple, card-based layout.

Search Tab: Explore users, trending hashtags, and suggestions.

Add Post: Upload photos with captions or share thoughts through text-only posts.

Like & Comment System: Interact in a light, non-intrusive way — perfect for introverts.
